PARTY # _____

Leader _____

AREA COVERED _____

Participants

TOTAL PARTY HOURS _____ (Hrs. on foot _____ ; by car _____)

TOTAL PARTY Km. _____ (km. on foot _____ ; by car _____)

STARTING TIME _____ ; **ENDING TIME** _____

Party hours and kilometers are the time and distance traveled by each group - not individuals in a group. A group of 4 people out together for 1 hour represents 1 party hour. If at some point that group splits into 2 groups of 2 people for an hour, you would add 2 party hours.
